SOOTHERS & TEETHING

Natural

Dental

General

OPTIMAL AIR FLOW

The butterfly-shaped shield allows free nasal breathing.

Holes in the shield provide additional airflow, preventing skin irritation.

SOOTHER VS. THUMB SUCKING

A soothers is more tooth-friendly.

More hygienic and safe.

A soothers helps to fall asleep calmly.

Soothing is easier to unlearn than thumb sucking.

Medical team

Developed in close cooperation with dentists & pediatricians.

✓ Easier on the teeth than thumb-sucking.

The size of the shield and nozzle are specially adapted to preterm babies until the age of 18 months and older.

Natural

NATURAL Facile à adopter

Forme ronde naturelle, comme le sein de maman, facilement acceptée.

difrax.

Dental

TAILLE EN FONCTION DE L'ÂGE

Tétine type naturel

Nos tétines répondent au besoin naturel de téter de bébé.

La taille s'adapte à tous les âges, du bébé prématuré jusqu'à plus de 20 mois.

Nouveau-né	0-6 Mois	6+ Mois	12+ Mois	20+ Mois
-2 à 2 mois - petite protection - petite tétine	0-6 mois - protection moyenne - tétine moyenne	À partir de 6 mois - protection large - tétine large	À partir de 12 mois - protection large - tétine large, semi-rempli	À partir de 20 mois - protection large - très rempli, tétine très forte et large

difrax.

General

DÉBIT D'AIR OPTIMAL

La protection en forme de papillon permet une respiration nasale libre.

Les trous dans la protection permettent une circulation d'air, ce qui évite les irritations de la peau.

difrax.

VALVE EN SILICONE Naturel

Garanti sans goût, odeur ni allergène.

Silicone doux et transparent.

Sûr et hygiénique.

difrax.

98% des parents recommandent les sucettes Difrax.
Leader du marché aux Pays-Bas.

TÉTINE OU SUCER SON POUCE

Une sucette est plus douce pour les dents.

Meilleure hygiène, plus grande sécurité.

Une tétine aide à s'endormir sereinement.

Il est plus facile d'arrêter la tétine que d'arrêter de sucer son pouce.

difrax.

ÉQUIPE MÉDICALE

Développé avec des orthophonistes et des dentistes.

Plus doux pour les dents que sucer son pouce.

La taille de la protection et la valve sont ajustées en fonction de l'âge.

difrax.

BOTTLE FEEDING

S-BOTTLES

MEDICAL TEAM

Developed with medical experts.

A suitable bottle for every age.

difrax.

ANTI COLIC SYSTEM

Reduces the risk of intestinal cramps, spitting up and burping.

The valve ensures a constant air supply. This prevents the S-bottle from sucking a vacuum.

difrax.

HYGIENIC Easy cleaning

Can be completely separated. Gives bacteria no chance.

difrax.

Durable borosilicate glass.

difrax.

SILICONE TEAT Easy to accept

The special coating provides extra grip.

Soft, transparent silicone material.

Taste, odor and allergy free.

difrax.

ANTI COLIC S-BOTTLE against intestinal cramps

The unique S-shape and the valve ensure that air does not mix with the food.

Optimal preservation of vitamins. 100% milk 0% air.

Most advised by professionals
Market leader in the Netherlands

difrax.

ÉQUIPE MÉDICALE

Développé avec des experts en médecine.

Biberon pour tout âge.

SYSTÈME ANTI COLIQUE

Réduit le risque de crampes intestinales et de renvois.

La valve assure un afflux d'air constant qui empêche le biberon en S d'aspirer de l'air.

HYGIÉNIQUE Facile à nettoyer

Peut être totalement séparé.
Les bactéries n'ont aucune chance!

Verre en borosilicate résistant.

TÉTINE EN SILICONE Facile à adopter

Le revêtement spécial offre une adhérence supplémentaire.

Silicone doux et transparent.

Garanti sans goût, odeur ni allergène.

BIBERON ANTI COLIQUE FORME EN S Aide à lutter contre les crampes intestinales

La forme unique en S ainsi que la valve garantissent que l'air ne se mélange pas aux aliments.

Une préservation maximale des vitamines.
100% de lait, 0% d'air.

Le plus conseillé par les professionnels.
Leader du marché aux Pays-Bas.
