So close to
mum's breast

Mammafeel

So close to mum's breast

The Mammafeel bottle has been specially developed to resemble the mother's breast in shape, texture and dynamics. Thanks to the dynamic bottle teat, the baby's natural sucking reflex is optimally protected. The Mammafeel bottle can be used from birth and is safe in combination with breastfeeding.

Natural feeling

Skin soft,
silicone ring

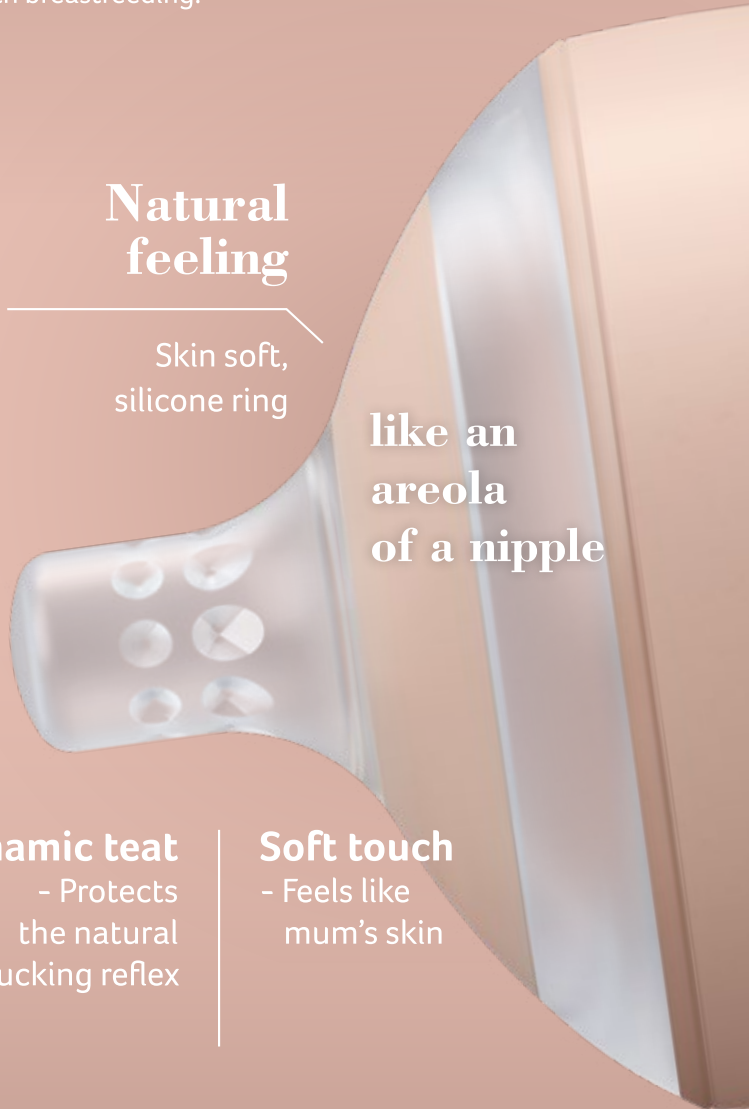

like an
areola
of a nipple

Dynamic teat

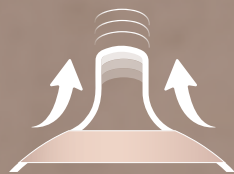

- Protects
the natural
sucking reflex

Soft touch

- Feels like
mum's skin

Dynamic sucking section

Sturdy base and expandable teat moves with the natural sucking rhythm.

Correct drinking position

The breast-shaped teat promotes the correct position of the mouth during drinking.

Anti-colic

Natural latching and free breathing through the nose reduce the risk of intestinal cramps.

Discover the benefits of the Mammafeel bottle
